## 1941 FLOWER SEED CONTRACTS

T. Sakata & Co.'s catalogue has been mailed. It illustrates the new 1941 crop Petunias, Fantasy and Radiance, newcomers in the All-Double family, also the new Single Fringed Sunburst and Silver Lilac. Have you received your copy? If not, please advise us.

Make a point of placing your contract orders early. It will help avoid disappointment later on. Contracts will be accepted only as long as the acreage planted warrants doing so. It will soon be too late to increase the acreage.

## BERMUDA ONION SEED

An air mail letter dated Jan. 27th from our grower on Tenerife gives us most encouraging news. Our acreage both of Yellow Bermuda and Crystal Wax as well as Red Bermuda, of which we really will have a supply this season, is in excellent condition. The weather has been favorable and ample fertilizer was available. Everything points to a good crop.

This is fortunate since news from California indicates a very small supply of seed. First, the bulbs available for planting were short. Now, rains have severely damaged the stand. We recommend that you cover your 1941 requirements of Yellow Bermuda and Crystal Wax Onion Seed at once while prices are still moderate. Your cooperation in contracting early will be appreciated.
